INTERSTATE POWER AND LIGHT COMPANY AND

RISKS ASSOCIATED WITH TRANSPORTATION OF CUSTOMER OWNED GAS

Pursuant to 199 IAC 19.13(6), Company hereby notifies Customer of the risks to Customer associated with transportation of Customer Owned Gas. The risks disclosed are those reasonably known to Company at the time this contract is executed by Company. Customer is assumed by Company to be aware of all risks associated with Customer's purchase and transportation of gas prior to its delivery to Company at the Point of Receipt. This notice shall not be construed as limiting in any manner the risks assumed by Customer upon entering into this Contract. By signing this Contract, Customer acknowledges that it has been made aware of the risks disclosed and accepts those risks.

The risks associated of election without Company-supplied reserve are as follows:

- a. During the term of this Contract, Company has no obligation to maintain or secure any gas to sell to Customer for reserve or any other purpose.
- b. If, at any time, Customer desires to purchase sales service gas, Company shall only be obligated to provide such gas on an as-available basis pursuant to Company's tariff on file with the Iowa Utilities Board.
- c. Customer will be liable to Company for pipeline penalties which Company may incur as a result of incorrect, improper, or late transportation nominations provided to Company. - d. If Customer uses gas from Company supplies in excess of the quantity of Customer Owned Gas transported, the gas will be provided only on an as-available basis and subject to penalty provisions, except where Customer has received prior written authorization from Company for limited excess use to be billed under the Company's tariff.
- e. Upon termination of this Contract, Company shall have no obligation to sell gas to the Customer. The right of Customer to buy gas or obtain transportation of Customer Owned Gas from Company after termination of this Contract shall be dependent on Company having or being able to secure adequate distribution capacity or supply at that time. The gas and the transportation of Customer Owned Gas shall be provided in accordance with Company's tariff.
- f. Other risks not specifically identified in this Exhibit C may arise from other provisions of the Agreement, the Company's tariff, and rules, regulations or orders of regulatory authorities.

14.12 RESIDENTIAL CUSTOMER NON-STANDARD METER OPTION - TERMS and CONDITIONS: Residential Customers may elect to forego advanced metering infrastructure (AMI) by electing the non-standard meter alternative option (NSMA Option), subject to the following terms and conditions. Customers that elect the NSMA Option shall be subject to the applicable monthly charge identified in Section 6.09(A) of these General Rules and Regulations.

Subject to the exceptions in this Section 14.12, a residential Customer may request a NSMA Option when AMI technology would otherwise be installed and operating on the Customer's premise. "AMI technology" refers to a module being added to an existing mechanical meter and does not require replacement of the entire meter.

Residential Customers must meet the following eligibility requirements in order to participate in the NSMA Option:

1. The Customer of record, who is responsible for payment of the natural gas service at the premise the meter is located, must request the NSMA Option;
2. The Customer must be billed for natural gas service pursuant to the tariff for Residential Gas Service; and
3. The Customer shall have only a single meter at the Customer's point of delivery measuring natural gas service.

Customers that elect the NSMA Option must agree to semi-annual actual meter readings by the Company with estimated meter readings for the billings for all other months.

Company will install AMI technology onto the meter in the event Customer:

1. voluntarily agrees to have the Company install AMI technology; or
2. is no longer the Customer of record responsible for payment of the natural gas service at the premise where the meter is located. IPL shall install an AMI technology for any new Customer at the premise, however, any Customer shall have the right to opt-out of having an AMI technology at any time, subject to the other provisions of this tariff.
