Natural gas rate adjustment

On Dec. 20, 2022, the Public Service Commission of Wisconsin (PSCW) approved updated natural gas rates for Alliant Energy customers effective Jan. 1, 2023 (docket 6680-UR-123). The average impact of the adjustment on commercial and farm customer bills is approximately 3 percent.¹ Actual costs will vary depending on customers' rate class and natural gas usage.

Alliant Energy continues to make things better for customers through smart investments that create a cleaner and more reliable energy future. This rate adjustment stems in part from changing interest rates and our investments in the natural gas distribution system. These investments will benefit Wisconsin customers and enable the continued delivery of safe, reliable, cost-effective energy for years to come.
