Natural gas rate adjustment

On Dec. 20, 2022, the Public Service Commission of Wisconsin (PSCW) approved updated natural gas rates for Alliant Energy customers effective Jan. 1, 2023 (docket 6680-UR-123). The average impact of the adjustment on industrial and transport customer bills is approximately 10 percent.¹ Actual costs will vary depending on customers' rate class and natural gas usage.

Alliant Energy continues to make things better for customers through smart investments that create a cleaner and more reliable energy future. This rate adjustment stems in part from changing interest rates and our investments in the natural gas distribution system. These investments will benefit Wisconsin customers and enable the continued delivery of safe, reliable, cost-effective energy for years to come.

Your bill shows separate charges for distribution (what we charge for delivering natural gas) and gas supply (what we pay to acquire natural gas). The gas supply base rate is adjusted monthly through the gas supply market adjustment, which is approved by the PSCW.
